Interests

Exploring new programming languages and framework.

Profile

Passionate Computer Science student with a strong foundation in programming (Python, Java, data structures and software development). Experienced in building web applications and collaborating on team projects, seeking an opportunity to apply technical and problem-solving skills in a software development role.

Education history

Bachelor of Technology in computer science and engineering,

2023 - 2027

Galgotias University

Courses

Database Design, Oracle Academy, July 2024 – Aug 2024

- Completed a comprehensive course on designing robust and scalable relational databases using Oracle technologies.

Design Thinking

Indian Institute of Technology Madras July 2024 - Aug 2024

- Completed a hands-on course on human-centered design and creative problem-solving offered by IIT Madras. Learned to identify user needs, redefine problems, and ideate innovative solutions through iterative processes.
-

Projects

A Smart Case Management System is a digital tool that helps make handling court cases faster and easier. It keeps all the case information in one place and helps track every step from filing a case to the final decision. It can send updates, manage documents, and remind people of important dates. By using technology, it reduces paperwork, saves time, and makes the legal process more organized and transparent.
